5.3802.08	WiKo anterior medial clavicle plate 3.5; 8 holes; length 103 mm

Information

In Germany the system name WiKo[®] is a Registered Trade Mark. The system name WiKo[®] is derived from the German designation "Winkelstabile Kombination", which translates into English as "Angle-stable Combination". This is a plating technology which offers stable locking at a specified angle. It includes all the angle-stable plates both with and without compression.

In Germany, in the EU states, Switzerland and in the USA TiOB[®] is a Registered Trade Mark.

We hope, this offer meets your expectations.
We would be happy to receive your order.
